1st Pinelands Cub Programme

Date	Friday 6 November 2026
Theme	View from Above — Objects and Maps
Duty Six	Green

Prep flag with duty sixer:		Six boxes and open back door:	
Hold gate key during pack meet:		Wolf head, skin, bench, beans:	
Door Duty at end of pack meet:		Attendance:	
Count beans and add to score sheet:		Guide duty six in pack up after pack meet:	

Time	Activity	Leader / Group	Materials
17:15 — 5 min	Grand Howl	All	Totem; skin; flag
17:20 — 10 min	Knots: round turn and two half hitches; hank a long rope. Demonstrate and practise the Term 4 knots.	All	Ropes; long ropes
17:30 — 5 min	Inspection: • • Knots (2 for each completed) • Badges (3/2/1)	All	Beans
17:35 — 10 min	GAME — Steam release: Beans. See complete instructions in Activity Guides.		
17:45 — 15 min	PARALLEL WORK SESSIONS Silver Wolves: Identify a simple object viewed from the side and top to illustrate the difference in shape. Basic views with real objects. Gold Wolves: Show how to use a street map. Find familiar places and trace routes on the Pack leader’s local street map.		Cup; tin; box; printed street maps; pencils

18:00 — 20 min	PARALLEL WORK SESSIONS Silver Wolves: Draw a simple map of your home or meeting place showing the different rooms and doorways. Use the actual meeting place. Gold Wolves: On a street map explain and recognise six to ten map symbols. Practise and check individuals using six to ten symbols from the actual map.		A4/A3 paper; pencils; erasers; street maps
18:20 — 15 min	GAME — Whole-Pack ID an Object Domino Relay. Sixes race to assemble their chains, placing ONE domino per Cub per turn. See complete instructions.		Paper domino sets; Six colour marks; lane markers; beans
18:35 — 5 min	Award badges; announcements; bean count and Golden Rock.	All	Badges; beans; score sheet; Golden Rock
18:40 — 5 min	Closing ceremony	All	Tiger skin; Totem

Silver Wolf advancement — Outdoor Challenge Compass and Mapping Identify a simple object viewed from the side and top to illustrate the difference in shape. (p.12) Draw a simple map of your home or meeting place showing the different rooms and doorways. (p.13)	Gold Wolf advancement — Outdoor Challenge Compass and Mapping Show how to use a street map. (p.13) On a street map explain and recognise six to ten map symbols. (p.13)

Activity Guides

Preparation and staffing

Have two Scouters available for parallel work, with the two groups in separate supervised areas. Leader and group assignment cells are deliberately blank for the leader of the day. Green is Duty Six; fill in the template's duty assignments before the meeting. Use the Pack leader's real local street map with a readable key; arrange copies where permitted, or sufficient shared access. Select two routes and six to ten symbols actually shown on the map before the meeting. Gather objects and drawing materials, and prepare the user's domino sets. Working assumption: one equivalent complete domino set per Six; confirm the available sets before running a simultaneous race.

Steam-release game — Beans (10 minutes)

Clear the floor and explain four commands: runner beans—jog around the clear playing area; jumping beans—small jumps on the spot; broad beans—stand with arms wide, keeping space; frozen beans—freeze. Call a new command every 15–30 seconds. No elimination. Use walking or seated arm movements where needed. Stop everyone before changing direction; no pushing. These commands are an AI adaptation of the library game Beans; no advancement credit is claimed.

Silver Wolves — Basic top and side views (15 minutes)

Silver Wolves: Put a cup, closed cylindrical tin and rectangular box on a low table. Keep each object in the same upright position. Each Cub looks from the side, then directly above without climbing on furniture. Ask: What is it? What outline do you see from here? What changes when you look from above? Compare a circle above a tin with its rectangular side outline. Turn-taking: each Cub identifies an object from both viewpoints and explains the difference. Allow handling and verbal descriptions. This is preparation and an individual evidence opportunity for the Silver requirement, not an extra drawing requirement.

Silver Wolves — Meeting-place map (20 minutes)

Silver Wolves: Walk around the accessible meeting-place rooms together with a Scouter. Notice how rooms connect and where doorways are. Do not enter locked rooms, stores or kitchens in use. Return to tables. Each Cub draws their own simple overhead map of the meeting place, showing the different rooms and doorways as gaps in walls. Labels are helpful but artistic quality and exact scale are not criteria. Each Cub points out the rooms and doorways to a Scouter; check the drawing against the actual layout. Keep completed drawings as evidence. Offer larger paper, a chunky pencil or a scribe following the Cub's directions when needed.

Gold Wolves — Street map routes and symbols (35 minutes)

Gold Wolves: Use the Pack leader's real street map of the local area, with its own readable key. Before the meeting, choose two suitable routes between familiar places and identify six to ten symbols that actually occur on the map. Give pairs copies or provide sufficient access to a shared map. Find the meeting place if shown, or another familiar starting point. Locate a destination and trace a route along named streets, then try a second route. Practise recognising and explaining the selected symbols using this map's key. Each Cub demonstrates how to use the street map and individually recognises and explains six to ten map symbols to a Scouter. Use spare practice time for Cubs to set one another routes. Symbols must come from the actual map; do not invent local landmarks or assume universal symbols. This is an indoor map activity; no road crossing is involved.

Whole-Pack finale — ID an Object Domino Relay (15 minutes)

Whole Pack—user-created ID an Object Domino Game. Working setup assumption: one complete, equivalent set per Six, marked on the back with the Six colour. Before the meeting, check that each set makes a complete chain and that the pictures clearly distinguish top and side views. Lay each set jumbled in its own assembly area at one end of the hall; Sixes line up at the other end in separate lanes. On the signal, the first Cub runs to their pile and places ONE domino to start the chain, then returns before the next Cub leaves. Each following Cub places ONE domino beside an exposed end, matching the top view of an object to the side view of the same object. Top and side views of an object are on different dominoes. Cubs may rotate a domino to make the match. If a Cub needs help, let them identify the matching object with a Scouter; other Cubs remain behind the start line. Finish when the complete chain is correctly matched; check it before declaring the winning Six. Award beans for the result and helpful teamwork. Keep paper outside the running lanes and leave clear stopping space before the assembly area. Offer a walking turn or

an equivalent seated placing role. Scouters observe individual recognition; a team win alone is not advancement evidence. The supplied description is user-created; separate sets, starting rule, checking and safety details are AI planning additions.

Advancement evidence and sources

Exact requirements are reproduced in the advancement table. Source: The Cub Trail — November 2019, pp.12–13 (repository: docs/The-Cub-Trail-Nov-19.pdf), the latest SSA Cub Trail supplied to this Pack. Individual Scouter assessment is required; programme participation and team success do not automatically award advancement. Allow any unfinished individual assessment to be followed up directly with a Scouter.

Provenance and reuse

Beans is adapted from docs/games/beans.md, sourced from the historical POP Grow your World programme; commands and inclusion guidance are AI additions. The domino game is user-created, with planning additions identified above. The three mapping/view work sessions are AI-created for this programme after searching existing Mapping and Map Drawing resources. Shared standalone entries are stored in docs/games/ and docs/activities/ with their source-neutral indexes updated.

Visual aids and attachments

Local street map: supplied by the Pack leader, with its own readable key; no map is embedded in this document. Before the meeting, check that the chosen map shows six to ten recognisable symbols and select two routes between places it actually shows. Arrange readable copies where reuse is permitted, or shared access. Domino pictures: the Pack leader’s own paper set, to be supplied; no digital domino sheet is included. Top/side demonstration: use real objects. Meeting-place map: Cubs draw the actual rooms and doorways; no building plan has been invented.
