4th Claremont Fernwood Cubs
Fire Safety & Conservation Stoves Programme
Date: 17 June 2026

Time	Activity and venue	Leader	Equipment
Beforehand	Meeting briefing and totem set up. Badges	All	Checklist Clipboard Pen
5.30 - 5.40	Opening Grand Howl **Birthdays: Ingrid & Zach** 🎂	Akela **Duty Six: Red Six**	Flag, Totem, Shere Khan skin
"You are asleep in your tent when suddenly you smell smoke. The campsite is filling with smoke and you need to escape safely. The problem is that smoke makes it difficult to see. Can you use your Cub Scout skills to find the safest way out?"			
5.40 – 5:50	Fire Safety STEAM Game: **Smoke Escape Maze** How to Play: • Cubs must imagine a "smoke-filled house." • Cubs crawl under obstacles while staying low. • Reach the safe exit. Learning: • Smoke rises. • Stay low and leave immediately during a fire.	Mang	Materials: • Chairs • Rope • Cones
Gold Wolves – Fire Emergency Procedures **Introduction** ***"Every hero has a plan. Firefighters train for emergencies long before they happen. Tonight you will become Fire Safety Commanders and learn exactly what to do if a fire starts at home, at school or while camping."***			
5.50 – 6.05	**Gold Wolves** **Fire Emergency Procedures** Discuss: 1. Raise the alarm. 2. Call emergency services. 3. Get out immediately. 4. Do not return inside. 5. Meet at the family assembly point. Activity: • Draw a simple family fire escape plan.	Adult helpers, adult leaders & scouts	Discussion with gold wolves, set up tables and crayons and pages
"For thousands of years people have used fire to stay warm, cook food and survive in the wilderness. But fire is a useful servant and a dangerous master. Before any Scout can light a campfire, they must first learn the secret skill of safely lighting a single match."			

5.50 – 6.05	**Silver Wolves** **Lighting a Match Safely** Demonstrate: 1. Check surroundings. 2. Hold match away from body. 3. Strike away from yourself. 4. Light tinder. 5. Extinguish safely. Each Cub practises under direct adult supervision. Discuss: • When matches may be used. • Why adult supervision is important.	Adult helpers, adult leaders & scouts	Wax candles, box of matches, jar of water
"Now comes the true test of a camp chef! It's not enough to light a fire—you must use it wisely. The Blue and Yellow Sixes are entering the Great Cub Flapjack Challenge. The judges are looking for teamwork, safety, good cooking and of course delicious flapjacks!"			
6:00 - 6.50	**Fire Lighting & Flapjack Cooking Skills Covered** **Fire Safety** • Clear area around stove. • Water nearby. • Adult supervision. • No running near fires. **Lay and Light a Cooking Fire** Demonstrate: 1. Tinder 2. Kindling 3. Fuel wood Show: • Teepee fire lay. **Cooking Activity** Blue Six and Yellow Six: • Cook flapjacks on four conservation stoves. Other Sixes: Rotate through stations: • Fire triangle quiz • Fire safety scenarios • Bush fire prevention discussion Discuss: • Why open fires can be dangerous. • Leave No Trace principles.	Mang & All adults	6 x pans, 6 x spatulas, 20 paper plates, roll of paper towel, syrup, none gluten flapjack batter, pan spray; chocolate sauce
"Tonight you learned that fire can be both a friend and a danger. Like all Cub Scout skills, knowledge brings responsibility. Whether at home, school or camp, you now know how to stay safe, help others and protect nature. Let's finish tonight's adventure as proud Fire Safety Rangers!"			

6.50 – 7.00	Grand Howl and badges Announcements: This is the last meeting for term 2. Akela will be away for term 3. Badges:	Akela, Ikki	Totem, Shere Khan skin Badges

Leader Preparation Checklist
Equipment

- Conservation stoves (6)
- Matches/firelighters
- Firewood/tinder/kindling
- Water buckets
- Hand-washing basins with hot water
- Dishcloths
- Flapjack ingredients
- First-aid kit
- Cones and rope

Key Learning Outcomes
By the end of the meeting Cubs should be able to:
✓ Explain the Fire Triangle
✓ Describe what to do in a fire emergency
✓ Strike a match safely (Silver Wolves)
✓ Lay and light a simple cooking fire
✓ Understand conservation stove use
✓ Create a basic family fire escape plan
✓ Demonstrate safe behaviour around fires and stoves.

Fire Safety for Cubs

Jump to navigationJump to search

Silver Wolf: Learn about fire safety and show the correct way to strike a match.

Making a fire and cooking something can be great fun, but you must be careful. Although a fire is useful, it can also be very dangerous if it gets out of control. So, before you can make and use your fire, there are are some very important things you must learn.

Lighting a match

The correct way to strike a match is away from you. Take out a match and close the box properly again. Make sure no-one is standing right in front of you. Now strike the match away from yourself like this:

See how your fingers are out of the way?

Hold the match pointing slightly downwards and let the flame burn up the match. Then hold the match pointing upwards and you'll see that it will burn more slowly. Blow out the flame before it reaches your fingers! After you have blown it out, don't touch the burnt part because it will still be very hot to start with.

Make sure the match is dead and cool before you put it in the rubbish bin.

Fire Safety

Did you know that foolish, careless people cause many of the veld fires in our country because they do not know how to look after matches or cooking fires? A tiny flame can destroy the entire countryside before it is put out. All living things in its path are burnt, and all that remains are ashes.

Remember to go over the safety rules before you start on your fire. Every Cub knows how important it is to take every care with their fire.

- Learn the safe way to strike a match.
- ALWAYS make sure there is a grown-up nearby.
- ALWAYS make sure that your fireplace is clear of grass all round, and that it is well away from trees.
- Whenever possible, raise your fire off the ground. Use a sheet of metal standing firmly on stones.
- ALWAYS make sure your fire is just big enough to cook for yourself.
- ALWAYS have a bucket of water handy to put out the fire, or a bucket of sand if no water is available.
- ALWAYS stay by your fire, from the moment you have lit it until you have finally put it out.
- ALWAYS put the fire out and make sure the coals are cool when you are finished.
- MAKE SURE that you are allowed to light a fire outdoors. In some places it is against the law to light fires out in the open. Use official fireplaces if available. Akela will advise you on this.
- MAKE SURE that it is not too windy. If it is, leave your fire lighting and cooking for another day.
- MAKE SURE there are no flammable materials nearby, e.g. tents, fuel, long grass, or the firewood pile. Make sure they are upwind and far enough away.

- ALWAYS wear shoes near the fire - this prevents burning your feet on coals that have fallen out of the fire.

- REMEMBER, if your clothes catch alight, STOP, DROP and ROLL.
