PACK PROGRAMME:

Week 1

Date:	09/10/2026
Responsible	Raksha

SW16 Natural materials item
SW3 Throw a ball to someone else

-

GW3 Hop in figure of eight
GW61 Make up a game about water safety

Time	Duration	Activity	In Charge	Equipment
17:30		**Setup** **Flag - Sheet Bend: (GW#59)** Sixer to set up and train Second	Green six	
17:45	00:15	**Grand Howl** Flagbreak (Cub Promise during salute - everyone) Attendance Register	Bagheera	Skin, Flag Register
		Yellow Six = bagheera Blue Six = raksha Green Six = rikki Black Six = mang Red Six = kaa White Six = darzee		Parent Helpers: Francis McGee (Nicole Mcgee Alexander Mcgee)
		Inspection: 1 bone neat scarf, belt and cap 1 bone name in cap	ALL	Bones
Lets head out to the field and get stuck in the mud!				
18:00	00:10	Steam Release all silvers stand across the field in a stick in the mud type formation. gold wolves take a tennis ball and throw it to a silver wolf, the silver wolf must throw it back to the gold wolf to be freed. The silvers can then become the catchers and can stick anyone not holding a ball in the mud, then they must be freed by catching a ball and throwing it back.	Raksha	tennis balls (cub cupboard)
hands up whos 7, i bet you can't wait to be 8! but can you hop in a figure of 8? lets find out				
18:10	00:10	All line up in sixes, Leaders to lay out a rope in front of their six in a figure of 8 Cubs need to then hop around the figure of 8 and then frog jump to the other side of the field, first six lined up at alert ready for inspection wins 5 bones.	Raksha CI Levi to demo	long ropes (cub cupboard)
Silver wolves, you are going to work on something out of this world in they foyer and Golds stay here on the field to plan something fun for our silvers.				
18:20	00:20	Activity: SW - foyer Cubs, who knows what a natural material is, can you give me some examples? (try to get prompt for food that grows and steer towards fruit + wood) So here i have two natural materials, I have apples and i have toothpicks. I would like you to get in groups of 2 or 3 and build rocket ships with pieces of apple and toothpicks	Raksha Darzee Mang	knives, apples, toothpicks
18:20	00:20	Activity: GW - field	Rikki Bagheera Kaa	**we might need to play with timing here - gold wolves might come up with**
		Make up a game about water safety. The gold wolves must discuss and plan a game that they can play with the silvers highlighting the importance of water safety		

		<u>Some prompts to give them:</u> - What water safety rules do you think the Silvers should know? - How can we turn those rules into a game instead of just telling them? - Should the Silvers be running around, working in teams, doing challenges, answering questions, or something else? - How will someone score a point or win? - How can we make sure everyone gets a turn? - How can we make the game fun for the younger Silvers without making it too easy? - What happens if someone gets an answer wrong? Could they learn the correct answer as part of the game? - What are the three most important things you want the Silvers to remember after playing? - Who in the Gold Wolves will explain the game, set it up, keep score and help the Silvers?		**something really fast - have them practice it a few times and iron out any kinks, add more stuff etc.**
		<u>ideas if they are struggling and need help</u> <u>1. water safety dash:</u> call out things to do around water and have the silvers run one side for safe and one side for unsafe <u>2. Water Safety Charades</u> A Cub acts out something such as putting on a life jacket, struggling in water, checking depth, calling a lifeguard, or throwing a flotation device. Team guesses it and explains the safety rule.		
CI to count bones				
Silver wolves, lets go outside and see what our gold wolves have planned for us				
18:40	00:20	<u>Activity: All</u> Play game GW's created	All	
Tidy up - caps & scarves on				
7:00 pm	00:15	**Points**		Points list
