1st Kengray Cub Programme

Theme:		**The Great Outdoors**	**Date:**	15-May-26
Time:	**Minutes:**	**Activity:**	**Equipment:**	**Scouter/ Assistant:**
18:00	5	**Opening:** Grand Howl, Flag Break, Cub Prayer	Rock, Totem & Skin	Akela
We're going to play a quick game to see how we can work together to keep the balloons in the air.				
18:05	10	**Steam Release: Floating Balloon** # Two balloons are released in the centre of the play area. # Cubs must work together to keep the balloons in the air. # Encourage them to hit the balloons in each others' directions so that they can work as a team.	2 x Balloons	Akela
Last week we learned all about the damage that pollution can cause in nature. We're going to check how clean the water at the Scout Hall is, and we're also going to make our own water filters so that you can see how dirty water can be cleaned.				
18:15	15	**Activity: Making a Water Filter** # Cubs are split into pairs # Each pair is given two glasses, a paper towel, some dirt and water # Dirt is mixed into the water in one glass, the other glass remains empty # The water-filled glass is raised slightly higher than the empty glass # The paper towel is rolled up and one end is put into the water and the other end is put into the empty glass # Cubs are to observe what happens over the course of the programme # One glass set will be used to test the water at the Scout Hall (Scouters to set up as a demonstration for the Cubs before they work on their glasses) **[SILVER WOLF AWARENESS: Demonstrate how clean or dirty the water is that you use]**	Glasses, paper towel, soil, water, small platforms for raising glasses	Akela/Rikki

1st Kengray Cub Programme

When we're outside in nature, we need to remember this at all times. The Outdoor Code is a really good way to remember how we should treat nature at all times.				
18:30	15	**Team Game: Unscramble the Outdoor Code** # A Scouter reads the Outdoor Code to the Cubs and gets them to repeat it, one line at a time. # Once they have gone over it 2 or 3 times, they are to get into 2 teams. # Each team is to work together to unscramble the Ourdoor Code sentences and put them in order. # After the game, Cubs to go outside and check for litter around the hall to make sure that the garden is clean. # Each Cub is given a laminated card with the Outdoor Code as a reminder **[SILVER WOLF AWARENESS: As part of a Pack activity outdoors, show that you know and practise the Outdoor Code]**	Laminated Outdoor Code Sentence Strips	Rikki
Learning about keeping nature clean is thirsty work - let's have a quick water break.				
18:40	5	**Water Break**		All
You might not think that a river or a pond has a lot of life in it by just glancing at it. However, if you look closer, you'll be able to see that it is full of life.				
18:45	10	**Yarn: Thabo's Secret Safari** # Cubs to listen to story. # Images of each creature to be shown during the story, then passed around and discussed after the story has been read.	Story Printout, Creature Pictures	Raksha
Now that we've learned about some of the creatures that can be found in water, we're going to make our very own water scopes so that we can look at the ones that live under water.				
19:05	15	**Activity: Making a Water Scope** # Each Cub to be given a yoghurt tub with the bottom cut off, a sheet of plastic and an elastic band. # Demonstration by Scouter of how to make the water scope # Cubs to assemble their own water scopes # Once complete, Cubs are to take turns to look into the tub with their water scopes and report back on what they can see. **[SILVER WOLF AWARENESS: Make a water scope to observe life underwater]**	1L Yoghurt Tubs, Thick Plastic (Book Covering or Similar), Elastic Bands, Tub of water with Plastic Sea Creatures in It	Raksha/Rikki/ Akela

1st Kengray Cub Programme

Let's go back to the table to see what our water filters have done!				
19:15	10	**Activity: Checking the Water Filters** # Cubs are to go back to the table with the water filters and observe what has happened. # Discussion about clean and dirty water, what should be done to sterilise filetered water to make it safe for drinking and their observations about how the filters have worked.	Water Filters	Akela/Rikki
Good job Cubs! I hope that you've learned some interesting things about respecting the outdoors and life in water tonight. Let's all go to Rock for closing.				
19:25	5	**Closing** Grand Howl, Flag Break, Cub Prayer	Rock, Totem & Skin	Akela
