# CUBS PROGRAMME - TIME TRAVEL

**Friday, 11 September 2026 | 17:30-19:00**

### 17:30-17:40 | GRAND HOWL & OPENING

Opening, inspection and Grand Howl.

### 17:40-17:50 | THE GREAT FIRE OF LONDON - Steam Release

Run outside in a large area. Start with one or two Cubs carrying red/orange sheets or cloths as the fire.
When a Cub is caught, that Cub takes a cloth and becomes part of the fire. Continue until the whole of London is burning.
Keep the cloths for the later distress-signalling challenge.

### 17:50-18:00 | SURVIVE THE FIRE

Move into the hall. Teach and physically practise stop, drop and roll, crawling below smoke, raising the alarm, getting out and staying out, what to do if clothing catches fire, and what to do if smoke blocks the normal exit.
Keep the session active. Cubs should demonstrate the actions rather than only discuss them.

### 18:00-18:05 | YARN - LONDON'S BURNING

Tell a five-minute yarn about the Great Fire of London and connect the story to the fire-safety skills just practised.

### 18:05-18:20 | KNOTS ACROSS TIME

Split the Pack. Baloo teaches the younger Cubs the reef knot. Mang teaches the 10-year-old Cubs the sheet bend and explains its use in attaching a flag to a halyard.
Pair each 10-year-old Cub with a younger Cub. Each older Cub teaches the younger Cub the sheet bend until the younger Cub can tie it independently.
Observe the older Cubs individually so the knot-teaching requirement can be assessed.

### 18:20-18:25 | JUICE & BISCUITS

Five-minute refreshment break.

### 18:25-18:40 | LOST IN TIME - COMPASS CHALLENGE

Move outside. Cubs navigate without GPS: identify North using a compass, use basic compass directions and complete a 6-10 move compass trail.
Run the activity as a Six-based challenge with course markers or clues leading to the final time portal.

### 18:40-18:55 | SIGNAL THROUGH TIME

Split the Pack into teams across the darker part of the grounds. Use torches and mirrors to send and receive signals.
Teach or reinforce SOS in Morse: ... --- ...
Prioritise the 10-year-old Cubs from 18:40-18:45. Once they have demonstrated the light/reflective signal, they break away to the Stranded challenge while younger Cubs continue signalling.

### 18:45-18:55 | 10-YEAR-OLDS: STRANDED DISTRESS CHALLENGE

Scenario: You are stranded. There is no mobile phone and the torch is no longer available. A rescue party is looking for you. Demonstrate ways to attract attention.
Make whistles, pots and pans, wooden spoons and the red/orange sheets available without immediately explaining their uses.
Cubs should devise an audible distress signal and construct a large ground SOS with the sheets. Count the earlier torch/mirror signal as the third demonstrated method.
Prompt only if needed: What could someone hear from far away? What could an aircraft see? What could you make much bigger than yourself?
Ensure each older Cub personally demonstrates three distress-signalling methods.

### 18:55-19:00 | CLOSING

Quick recap, notices and closing.

## EQUIPMENT / PACKING LIST

| Activity | Items required |
|---|---|
| Great Fire / Distress | Red/orange sheets or large cloths; enough pieces for the fire |

| | |
|---|---|
| | game and a large ground SOS. |
| Fire Safety | Clear indoor floor area; optional chairs or safe obstacles for crawling-under-smoke practice. |
| Knots | Short lengths of rope for all Cubs; ropes of different thicknesses if available; flag, halyard or suitable rope for demonstrating the sheet bend. |
| Refreshments | Juice, biscuits, cups, water and rubbish bags. |
| Compass Challenge | Compasses; prepared 6-10 move compass-course instructions; course markers or clues; final destination marker. |
| Signal Challenge | Torches; mirrors; Morse/SOS reference cards. |
| Stranded Challenge | Whistles; pots and pans; wooden spoons or other safe bangers; red/orange sheets from the first game. |
| General | Advancement record/checklist; pens; phone/stopwatch timer. |
