Theme:	THE SNAIL TRAIL	

Date: 21 September 2026 Duty Six: Yellow

Time	Min	Activity	Equipment	Scouter
18h00	15	**GRAND HOWL** Flag Register Break	Totem/skin/ Flag/flag pole Register	Akela Six
This year we have been focusing on books and stories. Some stories are fictional – meaning they are made up and some stories are non-fiction which mean they are real or based on facts. Tonight's book or story is The Snail Trail. Snails are interesting little creatures with soft bodies and a hard shell. They don't have any legs, but they do have a foot. Let's inspect our feet (shoes).				
18h15	5	**Inspection:** Shoes	Bones Bone bags	All
Did you know snails and slugs both belong to the same family? They are both Gastropods. Snails have a hard shell but slugs have no shells.				
18h20	5	**STEAM RELEASE:** Snails and Slugs Divide cubs into 2 teams. Cubs line up back to back in 2 lines down the centre of the playing area. One team is snails and the other is slugs. Leader calls out sssssnails or ssssslugs. If snails is called, they turn and chase the slugs. Any slugs caught become snails and vice versa.	None	Kaa
Snails can be found all over the world both on land and water. They are found in the sea and fresh water. The largest snail is the Giant African Snail. He can be up to 35cm long and weigh over 2 kg. Think how heavy it must be for him to drag his shell around with him. How heavy are you?				
18h25	10	**Relay Race: Drag your shell** Cubs line up in Sixes with Sixer at the front. On go the Sixer runs to the other end of the hall to retrieve a piece of card and rope and runs back. The next cub in line sits on the cardboard and holds the rope. The Sixer drags the cub across the room. When they get to the other side the cub being dragged brings the cardboard and rope back and fetches the next cub etc until the last cub. The last cub then drags the Sixer back across the hall. First six to finish and sit wins.	Cardboard and rope	All
When snails move they often leave a slime trail behind for other snails to follow. This snail trail can last for weeks if it doesn't rain. Can you recognise trail signs?				

18h35	10	**Wide Game:** In Sixes cubs need to search for their cards and once all cards are collected match up a trail sign with its name. E.g. "Gone home" with the stone circle with a stone in the middle.	Cards	Rikki
Like all creatures, snails need to drink water to stay alive. They get their water from puddles of rain water or the dew on plants. With your buddy go and have a drink or water too but remember water is precious so don't waste it.				
18h45	5	**Water Break**	None	All
It's time to make our own trail signs.				
18h50	30	**Advancement: Trails** **SW:** Make and recognise 10 trail signs. In pairs the SW can make trail signs for one another using craft sticks and pebbles **GW:** Lay a trail of at least 20 trail signs. In pairs the GW need to make a trail for the SW to follow.	SW: Craft Sticks and pebbles GW: Sticks, pebbles, rocks etc.	Kaa Akela Rikki
19h20	5	**Tidy up** **Collect of Bones** **Notices** **Interest Badges**		All
19h25	5	**GRAND HOWL** Flag Down Prayer Dismiss	Totem/skin/ Flag/flag pole Prayer book	Akela Six
Chums Promise and Law		**Silver Wolf** <u>Outdoor Challenge:</u> 1. Know how to make and recognise at least 10 trail signs. 2. Follow a wood craft trail	**Gold Wolf** <u>Outdoor Challenge:</u> 1. Lay a woodcraft trail where 20 signs are used for others to follow	

be prepared

TRAIL SIGNS

Trail signs are used to leave a message for other Scouts. Always make your signs clear, large and easy to see. Use natural materials found in the environment.

This Way:		Use sticks, stones, grass or leaves to make an arrow showing the direction to follow.
No Entry or Danger:		A cross tells people not to go that way or warns of danger.
Turn Left:		Make a clear arrow showing a bend to the left.
Turn Right:		Make a clear arrow showing a bend to the right.
Obstacle Ahead:		Two lines with a line across them or an arrow across the “obstacle”.
Water Ahead:		Use at least three wavy lines to represent water. Add an arrow to show the direction.
Split Group:		Shows the group has split up. Use tally marks to show how many went each way.
Message 4 paces this way:		Make a box with an arrow. Inside the box, show how many paces to walk to find the message.
Gone Home:		A circle with a dot in the middle. The trail is finished – return home.
