Theme	**Peter Rabbit**	

Date: 23 October 2026 Duty Six: **Green**

Time	**Min**	**Activity**	**Equipment**	**Scouter**
18h00	10	**GRAND HOWL** Flag Register Award stripes Break	Totem/skin/ Flag/flag pole Register	Raksha Six
Once upon a time there were four little Rabbits, and their names were Flopsy, Mopsy, Cotton-tail, and Peter. They lived with their Mother in a sandbank, underneath the root of a very big firtree near Mr McGregor's house. They loved to hop around with their cousin Benjamin Bunny.				
18h10	5	**Steam Release: Bunny Hop Tag** Game is played like regular tag except all cubs must hop instead of run. Two or three cubs are on and must try tag the rest of the cubs, but anyone caught running is out.	None	Kaa
Peter Rabbit was always stealing Mr McGregor's vegetables from his veggie garden when he isn't looking.				
18h15	10	**Relay Game: Steal the Veggies** One at a time, Cubs, in Sixes must get through the obstacle course to bring back the veggies. They must keep an eye on Mr McGregor though because if Mr McGregor turns around they must freeze until he turns back. If a rabbit is caught moving he/she must start at the beginning.	Items to make obstacle course, pictures of vegetables	Akela
Rabbits like Peter Rabbit can forage far and wide for food. We aren't going to forage for food tonight we are going to forage for litter!				
18h25	15	**Wide Activity: Litter Hunt** In Sixes Cubs need to go looking for any litter lying around the school that can be used for their eco bricks	Black Bags	All
Whew, foraging is thirsty work. With your buddy go and have a quick drink of water. Remember water is precious so close the tap properly.				
18h40	5	**Water break**	None	All

Peter and his friends relied on teamwork to bring home the veggies for mom to make food.				
18h45	10	**Game: Pass the Carrot** Cubs must pass a carrot along the Six from one cub to the next without using their hands.	Carrot per six.	Raksha
Rabbits, like Peter and his family, live in burrows under the ground. We can't all live under the ground like they do so we need to build houses. Most houses are made with bricks made from sand. Tonight we are going to make a different kind of brick that can be used to build a house. This brick however uses plastic and litter lying around so it helps to clean up our environment.				
19h05	15	**Activity: Eco Bricks** Cubs to make eco bricks as per instructions below.	Plastic bottles and rubbish to fill them, sticks	All
19h20	5	**Tidy up and pack up**		
19h25	5	**GRAND HOWL** Flag Down Prayer Dismiss	Totem/skin/ Flag/flag pole Prayer book	Akela Six

How to make an Eco Brick...

the Blight of PLASTIC

1

Take a used or found see-through plastic 2 litre drinking bottle, water or soda

2

Use a stick or the back of a long wooden spoon to compress the plastic down

3

It's easier if you fold the plastic first and then twist and twist it in

4

Squash all soft plastics deep into the bottom of the bottle

5

Fold, twist, push, cut, squash, compress, push, ...

6

It's IMPORTANT to be compacted the whole way through otherwise you will run into trouble

7

WHAT GOES IN? ....all clean dry soft plastics (bread and veggie pkts), chip pkts, sweet wrappers, ear buds, chewing gum, tin foil, glad wrap ....any small unrecyclable bits and pieces

8

WHAT STAYS OUT? ....no liquids, food, batteries, paper, whatever can be recycled

9

Final test stand on the bottle

....should be solid as a brick and not dent in ....if it does keep squashing more plastics in.
2 litre bottle should weigh 400g - 500g

10

Well done!
Put the lid on and your eco brick is finished and ready for building
