Yarn - Where's Wally Water Safety Puppet Show

Chil: Wow, it's so hot today, I'm glad we're heading over to the community pool. I hope it isn't too crowded.

Wally: Me too

Bo Peep: Me three

All: laugh

Chil: You two are so funny.

Wally: That ditch over there looks like a pond to swim in, cooool! <starts going over to the ditch>

Bo Peep: <pulls Wally back>

Chil: That's not a pool! Wally, are you trying to get really badly hurt?

Bo Peep: Yeah, what Chil said!

Wally: What's wrong with going in the ditch and splashing around?

Chil: You could easily drown, especially without an adult around.

Bo Peep: But you could save us, right?

Chil: I sure can, I have taken swimming lessons and know CPR.

Wally: What's CPR?

Chil: It's a way of saving someone's life if they aren't breathing

Wally and Bo Peep: Oh wow

Chil: Guys, just think before you sink!

<Put up Community Pool sign>

Chil: Here we are, and it's really crowded today

Wally: I guess that's because it's the weekend, baby!

Chil: So Wally, are you to take those swimming lessons that Akela suggested? Wally? Wally?

<Wally dives right in the pool> Chil:
Bo Peep, Where's Wally?

Bo Peep: Oh no!

<Bo Peep jumps in after Wally>

Chil: Help Help, call 112

<Baloo rescues Wally and brings him to the side>

Chil: Wally, hold on <pulls Bo Peep out>

<Wally and Bo Peep coughing and spluttering>

Chil: Thank you Baloo, you were watching and saved Wally

Baloo: You're welcome, and thanks for your help. Wally and Bo Peep, have you taken any swimming lessons?

Wally and Bo Peep: No <quilty voice>

Chil: Bo Peep, what were you thinking? You can't swim! You just put yourself in danger instead of calling for help.

Now! I have two things to say. Number 1, I'm happy you are safe. And number two, if you two were cubs you would know not to act so dangerously, right cubs?

Baloo: Excuse me Chil, do the cubs know that we have a gala tomorrow?

<wait for cubs to answer>

Chil: Well cubs, I hope you are not going to be as silly as Wally and Bo Peep. We will obey all the safety rules, right?

<Run through safety rules>
